

Tommaso Laterza

Senior Software Engineer

Experience in scaling web applications and leading development teams.
Focus on design systems, user experience, and frontend development.

LASTMINUTE

Senior Frontend Engineer 2022 - Present

REMOTE

Core developer for weg.de - a major German travel platform that helps thousands of users book their trips daily. I'm leading the modernization of the web platform, implementing company-wide design system standards, and building tools for monitoring performance.

- Architecting a new platform from the ground up
- Implementation of the design system used across multiple teams
- Coordinating with product and design teams to deliver new features
- Development of internal tools for tracking performance and KPIs
- Mentoring junior developers and fostering knowledge sharing practices

BOOM

Senior Frontend Engineer 2022 - 1 year

REMOTE

Early-stage startup that aimed at transforming the world of visual content management.

- Leading frontend development and architecture decisions
- Building and integrating core product features
- Coordinating with product team to define technical roadmap

FROG

Design Technologist II 2018 - 2022 - 4 years

MUNICH / MILAN

Part of a small, high-impact engineering team at a world-leading design consultancy, developing solutions for market leaders across multiple industries.

- Delivering production-ready applications at enterprise scale
- Leading development teams across multiple client projects
- Building rapid prototyping tools to validate concepts with clients
- Mentoring junior developers and fostering knowledge sharing practices

ARDUINO

Design Technologist 2015 - 2018 - 3 years

TURIN / MALMÖ

Core developer at an open source electronics platform, focused on IoT applications and developer education.

- Building web interfaces and applications for IoT devices
- Creating libraries and tutorials used by thousands
- Running workshops at universities and companies across Europe
- Contributing to the Arduino ecosystem through beta testing and community support
